Remarks

The Library has been open every week during the year. It has been well patronized. The circulation of books has been larger than usual. We have had a larger number of books donated to the library than during any previous year of its history. Hooksett Grange gave us a beautiful book, it is not only beautiful but very useful.

Mr. and Mrs. John L. H. Prince gave a large number of books. The books purchased by the town appropriation were selected from the best books of two large libraries. We hope our patrons will enjoy them. We wish to thank Mr. Morgan for keeping the library warm, also for making repairs. We thank the trustees and all others, who in any way have helped the good work of the library.

Respectfully submitted,

JENNIE B. ABBOTT,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

I herewith submit my twelfth annual report of the schools of Hooksett, for the year ending June 30, 1931.

There were maintained during the year ten schools for a school year of 37 weeks, with no change in the teaching force.

The enrollment of different pupils was 313, with a daily average attendance of 95.17 per cent. The schools were in session on an average of 360 half-days.

Of the ten teachers employed, all are graduated of high school and have a permanent state certificate; nine are graduates of normal school and one has attended normal schools and summer institutes for teachers.

Health

Hygiene, sanitation and physiology are taught in all our schools with emphasis placed upon pure foods, pure water, need of ventilation, and the evil effects of alcohol, nicotine and narcotics.

Health inspection of the school children by our school nurse covers all contagious and infectious diseases and most of the bodily defects, seeking to equip our pupils with good physical development and vigorous health. The school nurse, Miss Douillette, by her fidelity and industry, has succeeded in having many defects remedied and has had the hearty co-operation of parents, physicians and surgeons.

Child Training

The principal training-ground for the child's mind is the home and the school. History, pointing out that our present civilization has developed as a result of conflict and strife, shows that the problems and difficulties overcome by the child at home and at school determine his behavior, ambitions, and, in fact, the whole course of his existence.

As in childhood the teeth and gums need hard food to chew, and the muscles need resistance to work against, so the child's mind needs worthy problems and difficulties to contend with and conquer, both for his present happiness and future welfare.

Parent and teacher should realize that it is the duty of the child to do the work, and their duty to direct how the work is to be done without waste of time and energy. The early New England home in which each member of the family had its daily tasks to perform, is a valuable lesson for modern parents to learn and to heed.

The advice of a few educators (only a few), to assign only agreeable work to the child is unwise and fallacious. The greatest happiness and success in life comes from the accomplishment of worthy deeds; as one noted educator said "in getting the thing done." Unless the individual, through his own thought-process gains knowledge, can he hope that this knowledge will serve him in his time of need.

School Conditions

The work in our schools is being well done. The teachers are industrious and are carrying out the state program of study with a well-planned daily time-table and are supervising the conduct of the pupils on the playgrounds.

The few disciplinary troubles, chiefly caused by the lack of home-training and parental government,

make the duty of the teacher more difficult, the school life of the pupil less pleasant and his work less efficient.

The school board is deeply interested in the welfare of the pupils and is furnishing every means in its power for good schools. It is actively co-operating with the teachers and superintendent that the pupil may have such an education as will prepare him for complete living.

Parents and citizens are invited to visit the schools frequently and parents are asked to examine carefully the report cards sent to them for their signatures. These cards are to inform the parent of the work done by the pupil and of his conduct; teachers will gladly explain any report not understood.

In conclusion I express my appreciation for the co-operation and assistance given to me by the teachers, the school board and the citizens.

Respectfully submitted,

HENRY S. ROBERTS,
Superintendent.

MUSIC

We have come to another milestone on our journey into Music Land; pausing to consider if it has been as profitable to pupil and teacher as it has been entertaining, we feel that we can report progress. Pupils are studying the various branches of our art. Rhythm and harmonica bands have been organized. These bands are helpful in leading the girls and boys to realize and feel music as a means of self expression. Beautifully illustrated music books which provide the best types of music and an outline of musical history have been added to our musical library and teachers and pupils are aiming to raise the musical standard of each school and bring us to the fulfillment of our slogan "Music for every child and every child for music." We thank friends, parents, school committee, teachers and Superintendent for the interest shown in this branch of school work.

Respectfully submitted,

KATE L. SMITH.

Supervisor of Music.
